### Listing details

Event title: December 20-22 - Family Camping with Tents

Event description:

#### **FAMILY CAMPING WITH TENTS**

This is an unforgettable adventure for the whole family in one of the best places in northern Florida, just 4 hours from Miami! Enjoy nature, natural springs, fresh air, home comfort of a tent camp and communication with old and new friends on the eve of Catholic Christmas and New Year. This is an opportunity to spend time together, away from the bustle of the city, under the starry sky by the fire. Each camping charges with new energy of nature! Create memories that will stay with you for a lifetime! During camping, we will be able to play, have fun, communicate, relax in the fresh air, as well as fish and visit unique springs that are located right on the territory of the park where our camping will take place!

#### **For adults and children:**

Disconnect from the daily hustle and bustle: Adults often look for an opportunity to relax from work, stress and city bustle. Camping offers peace and unity with nature, which helps to recharge and relax.

**Family time:** Time spent camping allows you to strengthen family ties. Without distractions such as TV or smartphones, adults can fully focus on communicating with their children and with each other.

**Physical activity:** Hiking, swimming, collecting firewood and cooking over a campfire help adults stay active and enjoy the outdoors. Children play together, experience the real world of nature, participate in active relay races, play sports in the fresh air. Both children and adults develop the values of friendship, communication and caring for each other.

**Return to simplicity:** Camping allows you to immerse yourself in the simple life, which gives you the opportunity to rethink many aspects and experience the joy of simple things and minimal comfort.

For children, camping is the freedom to explore and create, it is learning and new skills. Children in nature are more relaxed and sensitive. In moments of communication with other children, they forget about phones and gadgets. This is where they understand reality and real life.
